

“Kids and California’s Oaks – Learning about California’s Oak Community”

You are invited to submit a proposal to the California Community Forests Foundation www.caltrees.org that demonstrates how your school, agency or not-for-profit organization plans to involve California’s school-age youth (PreK-12) in getting to know California’s oaks. CCFF will award up to ten \$500 grants to support outstanding proposals.

Please use the following criteria to develop your proposal:

- ***Provide your name, the name of the school, not-for-profit organization or agency and contact information (phone, email-address, mailing address);***
- ***Project Description (60%): your target audience, what you plan to do, where you plan to go (if applicable). Please limit your description to under 500 words;***
- ***Describe use of specialized curriculum such as “Investigating the Oak Community” www.californiaoaks.org/html/kids/html or any ‘service-learning’ with your proposed activities (25%);***
- ***How your proposal connects the youth involved to “STEM” (Science, Technology, Engineering, and Mathematics) principles (10%).***
- ***A timeline and budget that includes the \$500 provided by CCFF. You are not required to match the \$500 award (5%).***

Please format your proposal as a WORD document and send as an attachment to: emailccff@gmail.com . There is no deadline to receive your proposal. A report summarizing the activities and what was accomplished must be completed within a year of receiving the funds.

Funding for “Kids and California’s Oaks” grants has been provided to CCFF by the California Wildlife Foundation’s “Vesta Fund for Wildlife Habitat Conservation and Restoration”.
